Course Policies (Attendance, etc.):

Attendance

Students will not get any points for attendance because it is expected that they will attend 100% of classes. However, students must attend over 60% of classes to receive a passing grade. Note that students who miss 1/3 of classes rarely pass the course.

Academic Honesty

Students are not allowed to use translation software or Internet translation sites in this or any course at MIC. Although it is fine to work with classmates on homework assignments together, **copying homework from classmates is unacceptable and will result in 0% on that assignment for both parties.**

Assignment Submission

- Any assigned written work (not in the textbook or on the handouts) should be submitted in typed format. Keeping backups is strongly recommended! Name, student number, teacher's name, date, title, and page number(s) and exercise(s) of such assignment as appropriate should be written. Failure to do so may affect one's grade.
- Any homework assignments written directly in the textbook or on the handouts must be completed on time to earn points. For assignments reviewed in class, late homework will unlikely be accepted.

Class Preparation and Review:

- Students are expected to spend at least one hour reviewing and doing homework and one hour preparing for every hour of lesson time.
- "I was absent" is not an excuse for not completing assignments. If students miss a class, they should be sure to talk with your classmates first to find out what they have missed, then contact the teacher.
- If students do not understand anything at any time, it is their responsibility to ask questions. If they do not ask questions, the teacher will assume they understand everything.

Grades and Grading Standards:

Extensive Reading – 20%

In class, and sometimes as homework, we will work on *intensive reading* (see below). *Extensive reading*, however, refers to reading a large amount of longer, easier texts, focusing on the meaning. Although some class time will be used for extensive reading, most of it will be done on your own time, and

you can decide what you read. You will be required to read a certain total number of words by the end of each month, and complete “quizzes” to prove that you have completed and understood the reading.

Timed Reading – 10%

During timed reading sessions in class, you will be required to read a short and relatively easy passage as quickly as you can while still understanding the main points. Your timed reading score will be based on later assignments in which you performed well.

Participation, Homework & Course Activities – 50%

In class, and sometimes as homework, we will work on *intensive reading*, which is slow, careful reading of a small amount of difficult text, focusing on the language.

Assignments consist of reading, preparing for discussion, and completing text or handout exercises. We will typically go over previously assigned homework in class. As such, if you do not complete the assignment(s), you will not only get 0 points, but you will also not be able to actively participate in class activities, in turn affecting your participation score as well. It is therefore essential that you complete the assignments to the best of your ability on time.

There will be activities and quizzes based on the main readings throughout the semester. You may also be required to record video summaries on a video platform.

Continuing from Reading 1, you will be working almost daily on your vocabulary skills and critical reading skills using the online systems provided to you.

Final Exam – 20%

The final exam will take place during exam week. Information on the content of the exam will be given in class, but you can expect a reading comprehension test, and a vocabulary test. These will test your vocabulary knowledge and reading skills.

Note that for all online work, student efforts will be checked 4 times at regular intervals each semester:

Check 1: end of October

Check 2: end of November

Check 3: end of December

Check 4: last class of the semester

Details of goals for each check will be given in class.

Methods of Feedback:

In principle, work will be evaluated and returned within one week of submission. Feedback will be provided in the form of:

- Written comments on quizzes and assignments;
- Oral feedback both in class and during office hours;
- Model answers made available on Moodle and/or class handouts;
- Automatic feedback provided by online systems used in the course;
- Peer review and peer evaluation of oral paraphrases;
- Self-reflection on timed reading scores

Diploma Policy Standards Satisfied by Course Objectives:

Work completed in this course helps students achieve the following Diploma Policy objective(s):

1. Advanced thinking skills (comparison, analysis, synthesis, and evaluation) based on critical thinking (critical and analytic thought)
2. The ability to understand and accept different cultures developed through acquisition of a broad knowledge and comparison of the cultures of Japan and other nations
3. The ability to identify and solve problems
4. Advanced communicative proficiency in both Japanese and English
